DESIGNER HEATED DISPLAY CASES

Models GRCD-1P, -2P, -3P GRCDH-1P, -2P, 3P

GRCD-1PD, -2PD, -3PD GRCDH-1PD, -2PD, -3PD

For hot meals-to-go the Designer Heated Display Case features curved tempered glass styling and incandescent lighting to accentuate your product. The exclusive infrared heat pattern, combined with the heated base keeps all food at that "just made" taste and temperature longer. Perfect for hot food merchandising, Designer Heated Display Cases have an exclusive cool-to-the-touch base construction and use less energy than competitive display cases.

Combining state-of-the-art design with performance, these warmers place the focus on the product while holding hot food safely at proper serving temperatures. The modern design is perfect for front of the house use. Designer powdercoating blends these units with the decor while providing a durable, easy-to-clean surface.

FLEXIBILITY

Available as single or dual shelf warmers in one, two and three-pan models, with or without humidity. The bottom shelf has a chrome pan rail on models without humidity and a 3-quart (3-liter) capacity chamber and pan skirt for units with humidity.

The Designer series warmers are available in six color options to coordinate the warmer with any decor.

QUALITY

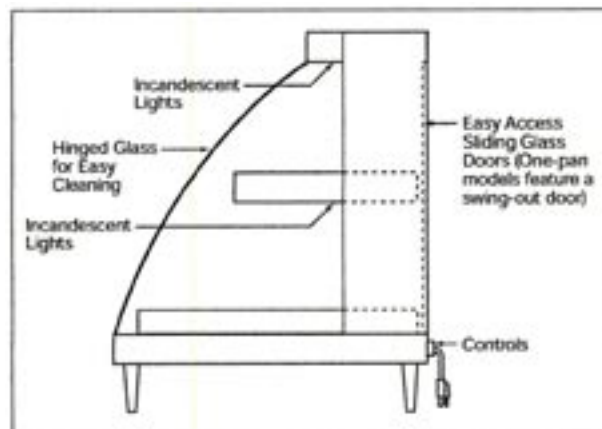

The following are features assure the finest performance for years to come:

- All models have prefocused infrared top heat directing heat to the outer edges of the holding surface where heat loss is the greatest.
- High visibility merchandiser with curved tempered glass.
- Hinged front glass panel tilts forward for easy cleaning.
- These warmers feature a thermo-statically controlled heated base with exclusive cool base construction.
- All models are shipped with 4" (10 cm) adjustable legs and factory attached 6' (183 cm) cord and plug.
- Shatter-resistant incandescent lights enhance product display while safeguarding food products from bulb breakage.
